The COBI.time user manuals are divided into three categories to help you tp set up COBI.time and use it:

- COBI.time user guide for the Administrator
- COBI.time user manual for the Standard user
- COBI.time user manual for the Manager

The manuals assume that the user is familiar with the PC or device on which COBI.time is installed. The person working with COBI.time must have sufficient security clearance and be authorized according to the status of the company.

Important Note

Please note that some features may not be available in your current version. The release notes provide you with an overview of when which functions were introduced with which release. You can find your current COBI.time version in the system settings in the lower right corner.
